### Flowchart symbols and their meaning

#### Start/end

This shape represents the start and end point of a system or process. It usually contains the word 'Start' or 'End'. A flowchart generally has one start point but can have multiple endpoints.

#### Flow line

A line with an arrow shows the direction of the flow through the flowchart.

#### Process

Can represent a single step or multiple steps within a larger process on the flowchart.

#### Decision

Sometimes a decision is needed before moving on to the next step in the process. This shape asks a 'yes' or 'no' question. The answer determines which arrow you follow out of the decision shape.

#### Outgoing off-page connector
